# Dots Ecosystem

The heart of the DOTS ecosystem.

A personal AI core that understands the user, connects every layer, and orchestrates daily life through one intelligent interface.

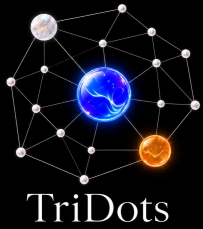

Irin

**Irin** is the personal AI interface of the ecosystem

A secretary that understands you, connects with **WonDar** products and **Eos** system, executes tasks across the ecosystem, and keeps you informed.

# Each dot is ~3.2 million people

2,500 dots = 8.3 billion humans.

# Dots Ecosystem

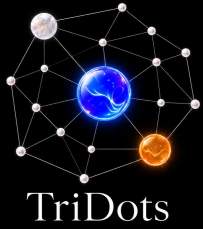

WonDar

**The body of the DOTS ecosystem**

A responsive home intelligence layer that turns devices, rooms, and signals into one living environment powered by **Irin**.

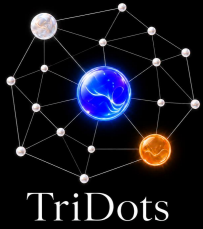

# wonDar

WonDar turns home products into an intelligent operating layer.

Every device is built to collect signals, respond to context, and coordinate through [Irin](#), creating a home that understands and reacts.

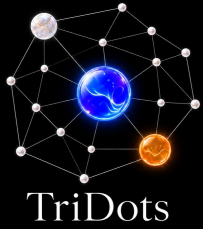

# WionDar

The market doesn't need more smart devices.  
It needs one responsive home layer.

**Smart home market**  
**\$147.5B → \$848.5B**  
**2025      2034**

The market is growing but the experience is fragmented.  
52% of users report setup issues.  
4 apps for an "average" smart home.

# Dots Ecosystem

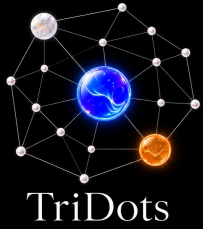

**Eos**

**The brain of the DOTS ecosystem**

A commercial intelligence layer that connects demand, operations, customers, and real-time data into one automated business system.

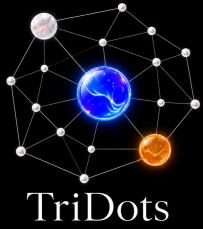

---

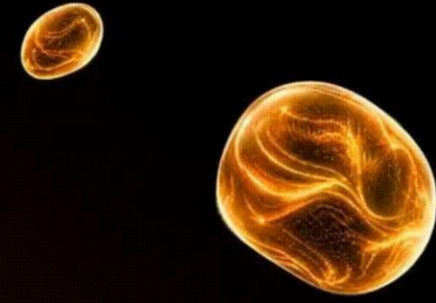

**Eos** connects orders, inventory, customers, staff, payments, and real-time data into one intelligent business layer.

So, businesses can automate operations, understand demand, and respond instantly across the wider ecosystem.

# Eos

Businesses don't need more tools.  
They need one layer that connects them.

---

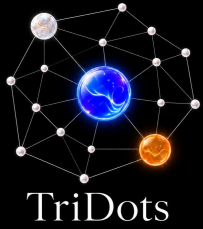

AI adoption is rising. AI execution is still missing.  
Retail automation market \$27B (2025) → \$77B (2034)

---

Sales Inventory Staff Payments Accounting Customers Delivery Analytics  
Disconnected tools. Disconnected decisions.
